Maintenance
Battery Information
This pager is designed to operate on one 'AA' size alkaline battery. When the battery icon reads empty, as follows: ▭ The battery should be replaced. The correct time and any stored Messages will remain intact for up to one minute after removing the battery, if the pager is first turned off in accordance with the "Pager Off" procedure(Page 3).

Care of your Pager
To maintain the fine quality of your pager's display screen, please do not subject the pager to extreme temperatures or moisture. Clean the pager housing using a soft non-adhesive cloth moistened with a mild soap and water solution. Wipe the surface with a second cloth moistened with clean water. Do not immerse the pager in water. Do not use any other cleaning solutions.

19

To Install or Replace a battery

UNLOCK

- Ensure that the pager is off.
- Place the pager face down in the palm of your hand
- Unlock the battery door lock by sliding it to the unlocked position.
- Push the battery door and slide it out as shown.
- Slide a new battery into the battery compartment.
- Ensure that the battery polarity is correct as indicated on the housing.
- To close the battery cover, slide the battery door back into position and lock it using the battery door lock
